From 26 september until 2 October, the International Film Animation Festival – Bang Awards – is back for its 3rd edition and it's going to be a blast!

Promoted by the Torres Vedras Municipal Council, organised by Nau Identidade and produced by Slingshot – Comunicação e Multimédia, this edition has “Human Nature” as its main theme.

What does Human Nature mean to each of us? What place do we humans occupy on our planet? What is the true nature of being a human?

These and many other questions will be posed and reflected in the films that will invade the Choupal and Centre of Torres Vedras, proclaiming them once again as a national and international point of reference in film animation.

Participants can submit their entries until 5 September 2016 on the festival site: www.bang-awards.com and show the world that there is still space for dreams!

The main prizes are divided into three categories: Online Vote, Best Online Film and Best Original Film:
